Welcome

Welcome to your Audi Complete driver guide. It's designed to explain your new plan, as well as what to do when your car needs maintenance.

What your plan offers

Audi Complete is a convenient way to ensure your Audi stays in good condition with the care of Audi Trained Technicians using Audi Genuine Parts®. Your individual plan has been tailored to you and your needs – just read on to find out how.

You will get a fully documented Audi service history, making your car more desirable if you ever part exchange or sell it. Audi Complete is also flexible, meaning the plan can be transferred to a new owner if your Audi is sold during the contract term.

If you have any questions about your plan, please contact your local Audi Centre or the **Customer Services Centre on 0370 010 2007**. We're available between 9am and 6pm, Monday to Friday (excluding Bank Holidays), 9am and 1pm Saturday.

Looking after your Audi

To get the best out of your plan, and your Audi, there are a few things you can keep an eye on in-between services.

These are:

- Check tyre pressure, tread depth and condition
- Check all lights and indicators
- Check the engine oil and coolant levels, refilling if necessary
- Follow the manufacturer's guidelines on oil refills and the quality of oil to use

Product Suitability

Audi Complete (FCM) is designed for vehicles set on a flexible service regime.

Audi Complete is not suitable for vehicles on fixed service regimes, future services could be declined if the vehicle is set on a fixed regime. Vehicles on a fixed service regime should only be set up on one of our FPS plans.

Please see info on service regimes on the other side of this page.

If you believe you have been set up on the wrong plan please contact VWFS customer services, to discuss your options.

Some vehicles have the technology to allow a choice of service schedules between Fixed Service Regime and Flexible Service Regime.

Fixed Service Regime:

This schedule means that the vehicle is serviced at a set mileage and/or time. The current schedule equates to one service every 12 months or 10,000 miles, whichever comes first.

Flexible Service Regime:

This schedule is dictated by on-board technology that monitors service requirements and oil usage. It is possible that some vehicles can go 24 months or 20,000 miles between services, meaning your vehicle spends less time in the garage and more time on the road for your enjoyment.

A step-by-step guide to using your plan

When your car requires a service or any maintenance, please contact your local Audi Centre to book your car in. Please book in advance where possible to ensure your appointment isn't delayed during busier periods. To find your nearest Audi Centre, visit www.audi.co.uk. When you're making your booking, remember to mention that you have an Audi Complete plan. Service or maintenance under this scheme can only be obtained from an authorised Audi Centre or Repairer.

The Service Advisor at your Audi Centre will contact us for authority to carry out the work required and you will be asked to sign only when the job is complete.

Make sure you have your digital service record updated by the servicing Audi Centre before you drive away.

Please note:

- If you ask the Audi Centre to carry out any work not included within your plan, you will have to pay for it when the work has been completed
- Any services not carried out before the contract end or mileage limit cannot be claimed for afterwards

Your plan in detail

Our plans give you the ability to spread the payments, making it easier to budget and protecting you today from any nasty surprises tomorrow. They also guarantee that your vehicle will be serviced by an expert technician, using only Audi genuine parts. After all, who knows your vehicle better than us.

The schedule on the next page confirms the events that are covered in your plan. For the exact dates and mileages when servicing is due, please consult your local Audi Centre and your service book. If your Audi has its own service reminder system and this tells you that a service is due earlier than expected, please contact us for advice.

Watch your tread

The legal minimum tread depth in the UK is 1.6mm (however our standard is 2mm) throughout a continuous band – comprising the central three-quarters of the breadth of the tyre and around the entire outer circumference of the tyre. The minimum standard of 2mm not only ensures driver safety and comfort, but can improve vehicle grip and road handling especially in wet weather conditions.

The Service, Maintenance and Tyres plan includes the provision to replace tyres, excluding winter tyres, when necessary due to wear and tear.

This means that, if required, brand new tyres will be supplied and fitted during the contract period and we will specify an appropriate make, tyre and supplier if necessary. This cover applies to the standard or manufacturer recommended upgrade tyre fitting for your car and we only use premium brand tyres.

Please call our approved tyre supplier on 0330 100 8909 with any queries or to arrange your tyre replacement.
