Welcome

Welcome to your Audi Complete driver guide. It's designed to explain your new plan as well as what to do when your vehicle needs servicing or maintenance.

You can now access information about your Audi Complete agreement and other products online. Visit myaudifinance.vwfs.co.uk to find out more.

What your plan offers

Audi Complete is a convenient way to ensure your Audi stays in good condition with the care of Audi trained technicians using Audi Genuine Parts.

You will get a fully documented Audi service history, making your vehicle more desirable if you ever part exchange or sell it. Audi Complete is also flexible, meaning the plan can be transferred to a new owner if your Audi is sold during the contract term.

If you have any questions about your plan, please contact your local Audi Centre or the Customer Services Centre on **+44(0) 370 010 2007**. We're available **Monday to Friday 8am – 8pm, Saturday 9am – 5pm**, Sundays and Bank Holidays closed.

Looking after your Audi

To get the best out of your plan, and your Audi, there are a few things you can keep an eye on in-between services. These are:

- ▶ Check tyre pressure, tread depth and condition (refer to page 11 for guidance on tread depth).
- ▶ Check all lights and indicators.
- ▶ For electric vehicles: Look out for any changes in battery performance or any visible change to cable/charging port.
- ▶ For petrol, diesel and hybrid engines: check the engine oil and coolant levels, refilling if necessary.
- ▶ Follow the manufacturer's guidelines on oil refills and the quality of oil to use on petrol, diesel and hybrid engines.

Contract Hire customers must also ensure that:

- ▶ Your vehicle is serviced at the manufacturer's recommended intervals by an Audi Authorised Repairer.
- ▶ Your vehicle is in good repair and condition at all times.
- ▶ You take action on any fault codes that need attention.

Service schedules

There are typically two types of service regime* available for your Audi (but you should always check with your Audi Centre as exceptions apply). Whichever regime your car has been set to, your MMI (Multi-Media Interface) or myAudi account can show you when servicing is due. If you're using the myAudi or Connect plug and play app, you can be notified automatically when you're due a service via your smartphone. It can even notify your preferred Audi Centre to get in touch for booking. In addition to oil and inspection servicing and depending on your particular car, there are a number of other items that require replacement at specific times or distances such as: air filter, pollen filter, spark plugs, fuel filter, brake fluid, transmission oil. Your Audi Centre will be able to advise on the specifics for your car.

Flexible regime overview

- ▶ Oil Service (petrol/diesel cars) based on oil degradation* but to a maximum of 18,600miles (30,000km)/or 2 years, whichever occurs first
- ▶ Inspection Service every 18,600miles (30,000km)/2 years, whichever occurs first

*The oil change service is the flexible element as the car calculates the rate at which the oil degrades which is influenced by a number of factors, such as driving style, journey types and ambient temperature. The actual mileage achieved before the oil change service is required can be anywhere between 9,300miles and 18,600miles. For example, customers driving longer, motorway journeys or using lighter engine loads may require the oil change closer to the maximum mileage. An oil change service will be due after 2 years, irrespective of mileage, if it has not been completed earlier.

The flexible regime is suitable for the vast majority of cars and is designed to be the most cost effective, but you may still prefer that your car is set to a fixed regime or it may not be eligible for the flexible regime. Please liaise with your Audi Centre.

Fixed regime overview

- ▶ Oil Service (petrol/diesel cars) every 9,300 miles (15,000km)/1 year, whichever occurs first
- ▶ Inspection Service every 18,600miles (30,000km)/2 years, whichever occurs first (some Battery Electric Vehicles have a fixed inspection regime of 2 years but with no mileage criteria. Check with your Audi Centre for details)

Some customers prefer the fixed regime (where available) as visiting an Audi Centre annually can provide extra peace of mind, the oil and inspection services can be completed in the same visit in the second year and they can budget with more certainty.

A step-by-step guide to using your plan

Step 1: When your vehicle requires a service or any maintenance, please contact your local Audi Centre to book your vehicle in. Please book in advance where possible to ensure your appointment isn't delayed during busier periods. To find your nearest Audi Centre, visit www.audi.co.uk. When you're making your booking, remember to mention that you have a Audi Complete plan. Service or maintenance under this scheme can only be obtained from an authorised Audi Centre or Repairer.

Step 2: The Service Advisor at your Audi Centre will contact us for authority to carry out the work required and you will be asked to sign only when the job is complete.

Step 3: Make sure you have your service book stamped, or digital servicing records updated by the servicing Audi Centre before you drive away.

Please note:

- ▶ If you ask the Audi Centre to carry out any work not included within your plan, you will have to pay for it when the work has been completed.
- ▶ Any services not carried out before the contract end or mileage limit cannot be claimed for afterwards.
- ▶ Damage caused to the vehicle as a result of neglect of service requirements will be charged to you.

Watch your tread

The legal minimum tread depth in the UK is 1.6mm (however our standard is 2mm) throughout a continuous band – comprising the central three-quarters of the breadth of the tyre and around the entire outer circumference of the tyre.

The minimum standard of 2mm not only ensures driver safety and comfort, but can improve vehicle grip and road handling especially in wet weather conditions.

The Service, Maintenance and Tyres plan includes the provision to replace tyres, excluding winter tyres when necessary due to wear and tear.

This means that, if required, brand new tyres will be supplied and fitted during the contract period and we will specify an appropriate make, tyre and supplier if necessary.

The coverage applies to the standard tyre fitment for your vehicle. Only premium brand tyres will be used and any optional upgrades to the standard specification (factory or aftermarket) are the financial responsibility of the driver.

Please call our approved tyre supplier on +44(0) 8000 855 552 with any queries or to arrange your tyre replacement.
