

Solutions Personal Contract Plan (PCP)

Product Information Guide

A PCP Agreement is our most flexible finance plan and is available to both personal and business customers, but not for hire and reward purposes.*

So, what are the benefits of a PCP agreement?

- You get to change your vehicle regularly
- You can choose how long your agreement lasts to suit your budget
- You have four options at the end of your agreement, more detail below
- You don't need to pay a deposit if you don't want to. However, if you choose not to you are likely to pay more in interest charges*
- PCP agreements offer a Guaranteed Minimum Future Value (GMFV) on your vehicle at the end of your finance term. This means you are protected against depreciation should the market value of your vehicle change more than predicted

How does it work?

Before your agreement begins, you have four simple decisions to make, each one contributes to the amount that you will need to pay back each month

What vehicle would you like?

Visit your local SEAT Retailer or explore our range of vehicles online

How much would you like to pay as a deposit?

There is no minimum required but there are maximum restrictions.
You can even trade in your current vehicle as a deposit

How many miles will you drive each year?

This must be between 5,000 – 30,000

What contract term best suits you?

Choose a term between 18 and 49 months

Once you have made these decisions, we will then calculate a monthly repayment amount and the optional final balloon payment. The optional final balloon payment is a lump sum that can be paid, alongside the option to purchase fee, to settle your finance agreement, if you decided you would like to own the vehicle. Please refer to 'When your agreement comes to an end' for more information and alternative options.

Once your agreement has started, this is what happens:

- You pay back your monthly repayments over the period you agreed at the start of your agreement
- To keep enjoying your vehicle, you need to keep up to date with your monthly repayments. Failure to do so can impact your credit rating and result with the vehicle being repossessed. If you are experiencing any money struggles, please contact us as soon as possible on 0370 333 4446 so we can discuss what options may be available
- If you want to end your agreement early, you can request a settlement quote. How far into your agreement you are will affect the amount left to pay

When your agreement comes to an end, you have four options:

If your vehicle has significantly depreciated or you no longer wish to drive it, you can simply return it to us and pay the £10 option to purchase fee. This is subject to being within BVRLA wear and tear guidelines and if there is any excess mileage, then charges will apply

You can trade your old vehicle in for a new one. Your old vehicle is sold back to the dealer and is used to pay off your optional final balloon payment. Any money left over can be used as a deposit on your new vehicle (subject to application and approval)

Alternatively, you can become the proud owner of your vehicle by paying what is left (optional final balloon payment + £10 option to purchase fee)

If you would like to keep the vehicle, without settling the optional final balloon payment, you may be able to refinance the outstanding amount. Just ask your Retailer for more information

*i.e. taxis, driving school, body-shop usage, long term sub-let agreements (>1 month) or replacement vehicle insurance claim business. ^This is subject to status. An offer of finance depends on certain conditions. Available to 18s and over in the UK only. Terms and conditions apply.
